

ANAS MELHEM

FULL STACK DEVELOPER

Coding has changed my world. It's not just about apps. Learning to code gave me problem-solving skills, analytical and logical thinking, as well as technical knowledge and expertise to build new websites in a proficient way. Seeking to further improve my skills as a future web developer, and love to take up new challenges.

PROJECTS

- Building a Dynamic Website using HTML5, CSS3, JavaScript, and minimum usage of bootstrap and jQuery.
- WordPress: E-commerce Website.
- Build an e-commerce web application using PHP and MYSQL.
- Project in PHP framework /Laravel (hotel booking).
- Service Website in React.
- Hybrid Mobile Application (React native).
- Data Analysis Project using python framework (Django/MVT).
